## Compete remotely

We know that in this situation it's hard to travel through countries. That's why we allow non italians skaters to compete remotely through the online procedure described below:

During the inscription phase specify that you will attend the competition remotely. In this case there's no need to send us the music. But you must write the date you planned to record the video.

You then must record a video of your performance in **full-HD** quality with dress and music as in a normal competition but you can't edit it.

Make sure the audio is on and that the music is well recorded (make some tests on the device before recording).

You can use your cell phone to record the video but be careful not to move too much; use a tripod if necessary.

In the beginning of the video you must be in front of the camera and show the current date (hour, day, month, year) that has to be the same written in the inscription email and tell your name and club.

You can use this page to show clearly the current date: [dateoftoday](#).

Then without stopping/pausing the video, reach the starting position of your program and do your performance.

**The video cannot be recorded multiple times even if the performance goes bad. We expect seriousness from all competitors/clubs.**

After recording the video you must send it before the **29th of May** to:  
postmaster@artisticoinlinesanmarco.it

You can use WE TRANSFER if you have problems with the attachment size.

### Diamond Skate Trophy 2021

Both on site and remote athletes will participate in the chosen division and category and will be judged by the same panel as in a normal competition.

In every group, athletes that are on site will perform before remote ones.

All the competition will be live streamed (we will stream remote competitors too reproducing the video of their performance).

The best three remote athletes in each category, will receive a special prize.

## Results and Ranking

All the results are going to be uploaded in the event website page as always.

At the end of every category there will be two rankings: one for the on site skaters and one for the remote ones.

That means that there will be three winners for the on site event and three winners for the remote ones.

## COVID-19 Protocol

We care a lot about the safety of the athletes and we want the competition to take place in serenity also from the health point of view.

We will send all members after the registration deadline the complete list of security measures to be taken.

In addition to this, for any questions or needs you can refer to the covid manager.
